### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The amendment filed on 6/12/2007 has been considered in view of the specification and the drawings of the invention with respect to the references of the record. Claims 1-9 recite:

Notably, the present invention, as recited in claim 9, requires **generating a command by an external operation of an operator and a sequence of tuning build in the device.** For example, in relation to the exemplary fourth embodiment discussed on page 28 of the present Specification, a command is generated by an external operator. Such a command is based on a sequence of tuning built in the device. The gain is increase/decreased based on the information obtained at this time. In other words, the increase/decrease of the gain is obtained in real time.

The references of the record taken alone or in combination fail to teach or suggest generating a command by an external operation of an operator and a sequence of tuning build in the device as recited in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Paul Ip/ whose telephone number is (571)-272-1941. The examiner can normally be reached on Monday to Friday from 6:30 am to 3:00 pm.
